REVENUE DEPARTMENT.

O.M. No. 1585 / 7-9-05.

In his Letter R.C. 580 B&G dated 16th June 05, submitted with B.P. No 3788 dated 8 July, the Collr of Madura applied for sanction for a Dy Collr with necessary establishmt. for the acquisition of the lands, about (147·98A + 13·23A) 161¼ acres referred to in paras 1 & 2 of G.O. No 418 Rev. dated 11th May 1905. As the cost of the Dy Collr & his establishmt. is debitable to the capital acct of the Project, it will have to be sanctioned in the PWD & will require the sanction of the G. of I. & before that sanction can be obtained, an approximate estimate of the cost of acquisition is needed. The Ex: Eng., Madura has, in his Lr No 2643 m. d. 23 Aug 05, called on the Collr of Madura to supply this estimate. In order to prevent further delay, the Bd is requested to desire the Collr to expedite the submission of this approximate estimate, wh, it will be observed, should not involve a further field-war examn of the lands but should merely be suffct to enable an allotment of funds for compensn to be obtained.

Resolution

With reference to Government Memorandum No.1585,

dated

dated 7th September 1905, the Board begs to state that the amount of compensation payable in respect of land damaged by the Periyar water is estimated by the Collector at --- Rs.43,860/- inclusive of the 15 per cent allowed for compulsory acquisition. The estimate is based on the present market value of the land, with reference to Section 23 of Act I of 1894.

D.I.

The Supg.Engineer, VI Circle, who had been directed in G.O.No. 504-I., dated 25th May 1905 to submit an estimate for the compensation for the lands damaged by the Periyar water forwarded in August last, copy of a letter written by the Executive Engineer, Madura Division, to the Collector, asking for information as to the rate of compensation for the lands in the different villages affected to enable him to prepare the estimate. To avoid delay in the collection of the necessary information the Board of Revenue was, in official memorandum No.1585 dated 7-9-05 of the Revenue Department, requested to instruct the Collector to expedite the preparation and submission of the estimate which, it was observed, should not involve a further field war examination of the lands, but should merely be sufficient to enable an allotment of funds for compensation being obtained. In Septr. 1905 the Supg. Engineer submitted an estimate of Rs.83,500 received from the Executive Engineer who stated that provision had been made not only for the lands included in the detailed list prepared by Mr. Wallace in 1902, but also for others which had been damaged since the preparation of the above list, and that the rates per acre had been fixed in consultation with the Revenue Department. This estimate, the amount of which was raised to Rs.85,000 to include the cost of the special establishment proposed by the Collector and the Board for land acquisition, was submitted with this Government's letter No.1226-I dated 12-12-05 to the Government of India for sanction under the Open Capital Account of the Periyar Project.

p 18 of
pp 2-3 of file

With reference to the official memorandum No. 1585 dated 7-9-05 sent from the Revenue Department the Board of Revenue now states that the amount of compensation payable for the lands damaged is estimated by the Collector of Madura at Rs. 43,860 inclusive of the 15 % allowed for compulsory acquisition. As the figure now furnished by the Collector is just above one half of the amount of the estimate submitted to the Government of India for sanction, and as the Executive Engineer had in preparing his estimate, obtained the value per acre from the local officers of the Revenue Department an explanation of the difference appears to be necessary.

It is submitted therefore, that the file may be sent back to the Revenue Department with a request that the Collector may be asked to explain the great disparity between the estimate furnished by him and that submitted by the Executive Engineer after due consultation with the revenue officers of the District.

[illegible]
16.1.06.

The Ex Engr's estimate of area is one-third greater than that of Mr Wallace; It is not clear that anything will be gained by the course proposed. If the Exe Engr's este is too high we shall have funds for taking up land for river training if not we are on the safe side.

Presumably the Exec Engr will have to demarcate the lands which are finally decided to be acquired.

[illegible] 16/1/06

Put up with R. B. [illegible] [illegible] F

There would seem to be no need for asking for explanations, there being every reason to believe that the estimate submitted for sanction will amply cover the cost — As to area to be demarcated accurate plans & list are to be made in consultation with a special Revenue officer on receipt of sanction to the est. submitted vide E.E.'s letter No. 744 C9 d. 5.11.05.

P.W.D., Irrigation Branch.

D.I.

The sanction of the Government of India to the estimate of Rs 85,000 for compensation for lands damaged by the Periyar water has been received. As it has been considered unnecessary to call for an explanation as regards the difference between the Collector's estimate and that furnished by the P.W. Officers, it is submitted that the papers may be recorded. A draft is submitted for approval.
